STUNNING ELEMENTS

The shades that comprise the Glossy series, thanks to their sobriety and naturalness, perfectly integrate with the contemporary style of home furnishing. The minute details that characterized the glossy collection are seen best in the three-dimensional structures decor; in the Wall 3D, for example, built from small bush-hammered, honed and sand-blasted pieces, or in the Rub decor, which with its worked surface, tells the story of the material quality of sedimentary stone. The Wall Clad interprets an assemblage of tradition, which combines perfectly with the rest of the collection, thanks to its naturalness.

GRACE THAT LASTS ETERNALLY

A collection that redefines for the modern age, for style and application, a tradition of interior design, rooted in time, as the Venetian terrace, which, beyond its name, originates from the walls of ancient Greece and Roman villas, to reach the Liberty period of the beginning of the 20th century.

tiles with graceful touch

When it comes to wall tiles, they turn into the key element in decorating the living space, giving the wall tile the focus of attention indoors. The main theme of our decorative tile is, without a doubt, the hydraulic wall tile. The antique style is fashionable again. The constant search of being singular encourages the interest in the past. Nowadays, people are seduced by worn out shapes and, vivid colours like the ones we can find in the clay. A contemporary vision of an antique style.

Majestic Creation

Shifting the focus from minimalism to the mighty force of geology makes for an interior design trend guaranteed to get heads turning. The dramatic interior is a trend with an essentially neoclassical influence, inspiring spaces. Stone hewn from the world's most prestigious quarries is the origins of this trend, characterized by natural effect designs featuring sophisticated patterns and bright and beautiful colours which, together with the precious stone effects, will become the focal point of any room.

In an evocation of luxury and elegance, interior design creates dramatically theatrical spaces, applying state-of-the-art technologies and designs with granilla (a granular glaze) to reposition ceramic tiles at the forefront of contemporary interior design and decoration. Subtle shading, veining and glossy effects are the hallmarks of seven series that together form a collection, the quintessence of the trend defined above. Superb designs combined with cutting-edge technical features that together allow for stunning visual impacts and clever plays on colour that will look fabulous in any room where a wall or floor tiles are a core decorative element.
